

# product information sheet

## *Augasorb Clove*

The newly created Augasorb Clove flavour and fragrance ingredient has been produced by a novel extraction method, isolating the definitive suite of aromatic components from *Eugenia caryophyllata*, whilst retaining an aroma true to the original material; without the need of traditional methods of production that utilise hazardous or expensive solvents.

This ingredient is suitable for use in a wide range of flavour and fragrance applications, particularly those requiring a spicy, eugenolic character.

Botanical Source:  
*Eugenia caryophyllata*  
– buds

CAS:  
8000-34-8

FEMA:  
2324

Recommended dosage:  
500 ppm
