

product information sheet

Augasorb Nutmeg

The newly created Augasorb Nutmeg flavour and fragrance ingredient has been produced by a novel extraction method, isolating the definitive suite of aromatic components from *Myristica fragrans*, whilst retaining an aroma true to the original material; without the need of traditional methods of production that utilise hazardous or expensive solvents.

This ingredient is suitable for use in a wide range of flavour and fragrance applications, particularly those requiring a warm, spicy, seasonal feel.

Botanical Source:
Myristica fragrans – seeds

CAS:
8007-12-3

FEMA:
6365

Recommended dosage:
500 ppm
