

product information sheet

Augasorb Rose

The newly created Augasorb Rose flavour and fragrance ingredient has been produced by a novel extraction method, isolating the definitive suite of aromatic components from *Rosa damascena*, whilst retaining an aroma true to the original material; without the need of traditional methods of production that utilise hazardous or expensive solvents.

Botanical Source:
Rosa damascena – flowers

This ingredient is key to a number of fruit flavour complexes including; apricot, strawberry, almond and apple; as well as fruit punch flavours; and is also ideal for use in decadent cosmetic products, or fine fragrances.

CAS:
8007-01-0

FEMA:
2988

Recommended dosage:
100 ppm
